

DISPATCH

1. Enclosed is [redacted] the FY 1970 [redacted] project renewal request [redacted] as a separate cover attachment.

2. No attempt has been made in this renewal request to repeat the details reported in progress reports about the succession of [redacted] [redacted]

3. Please note the drop in estimated funds for FY 1971. This is because we foresee using [redacted] funds for activities directly connected with the 1970 presidential elections and cannot at this point foresee any large scale expenditure of funds after the 1970 elections. At that point the party may well either revert to moderate control by default should the WRAP be defeated or the party may have become so disorganized and shattered that we would have little interest in reviving it.

Attachment dated 04 APR 1969
